PROFESSIONAL PROFILE

I am a software engineer with over six years of experience building and securing web applications and backend systems, and I have volunteered as a public health advocate with Corporate Accountability and Public Participation Africa (CAPPA) since 2021. My technical work shapes how I do advocacy. I know how online platforms move information and how to organise people around a single action. I want to use my skills in backend development, data handling and web security to build digital tools that help public health campaigns reach more people, expose industry interference in health policy and respond to it quickly.

PROFESSIONAL EXPERIENCE

Mckodev Tech Lab

Senior Web Developer / Technical Specialist | January 2020 to Present | Ekiti State, Nigeria

- Build and deploy web applications with PHP, Node.js and MySQL for business operations.
- Set up CI/CD pipelines so applications can be tested and deployed faster.
- Mentor junior developers on code quality, development practice and problem-solving.
- Work with other teams to plan and build technical solutions for business needs.

Bureau of Information & Communication Technology, Ekiti State

Web Developer (Intern) | January to May 2022 | Ekiti State, Nigeria

- Helped build secure, responsive web applications and reviewed code to make it easier to maintain.
- Designed and optimised databases to speed up data retrieval.
- Worked with senior developers to troubleshoot and fix technical problems.

Fashek Tutorial Center

Computer Instructor | July 2017 to October 2018 | Lagos State, Nigeria

- Wrote and taught a basic computer literacy curriculum built around hands-on lessons.
- Ran practical classes to build students' understanding and computer skills.

Eslek Business Center

Computer Operator | January 2016 to May 2017 | Lagos State, Nigeria

- Ran day-to-day computer operations, gave troubleshooting and technical support, and kept accurate records.

VOLUNTEER EXPERIENCE

Corporate Accountability and Public Participation Africa (CAPPA)

Digital Media Volunteer | 2021 to Present

- Contributed to several CAPPA public health campaigns.
- Designed social media campaign resources, including graphics, for advocates to share.
- Mobilised social media advocates for the August 2026 #RecallTobaccoBill and #NoPresidentialAssent campaign on X.
- Supported the joint call for the withdrawal and review of the proposed National Tobacco Control Act amendments, and for the President to withhold assent.

EDUCATION & CERTIFICATIONS

Global Tobacco Control: Learning from the Experts

Institute for Global Tobacco Control, Johns Hopkins Bloomberg School of Public Health | Completed October 2026

Bachelor of Science in Cyber Security (Ongoing)
